Start

It's volume 4!! In this volume, they're finally university students! I wonder if Nemu Nemu to try new things so I considered work, club activities and all sorts of things but I didn't draw about those things at all (>_<) To be able to continue drawing this series is good enough, so it's fine even if I can draw a little bit at a time. And then Mayu! He became a bit more mature in the 3rd volume. Although he gave off the impression of [arrogant and self-absorbed and a little bit lonely] it would be good if everyone can recognize the process where he grew from a naughty child to a man through everyday happenings

Talking about volume 3, Maya, who swept his hair back in the serialization, got much praise. To be able to mess around this much in the serialization was pretty fun and it's a new course of glee. I originally wanted to draw them eating course to be pleasant ♥ The scene was supposed to be simple, but my editor suggested "Let them be more intimate." That's why Maya was worried about the spiciness of the Tabasco sauce. I think about this scene to myself when I think about this scene getting off the readers' "moe moe radar"

Author's note

Finally, about this onsen trip. Surprisingly many people were worried if they could go together successfully or not. Indeed the extra content is about their trip there. Although I really wanted to draw Maya in a yukata properly. I felt that he would probably be too big and the yukata would definitely end up being too short (^_^) Personally, I felt very satisfied drawing Maya reflecting♪ Also also about Justin and Sensei. Looks like there are more people who want Sensei and Akira to end up together (?) The two of them don't really know how to give in nor move on. I think drawing about them once in a while is good enough. There are people who want to read about them~ (Aiya.) Anyway, I feel very happy to be able to receive everyone's responses about Sensei's arc.

Then, I'm extremely grateful you read all the way till here ♡

♥ 一直感激不盡的各位。
